Directions

- Pre-treat tough stains. Apply Brisk® Advanced full strength onto the stain, rub firmly and add to the washload.
NOTE: Always check the care label of the garment you are washing. Be sure to test colorfastness by pre-soaking an inside seam.
- Select water temperature and washing machine cycle from the garment's care instruction label. Special soil dispersants in Brisk® Advanced get clothes clean in any water temperature. Hot or Cold.
- For medium-size loads - 3 pump strokes (about 1/3 cup) into a cup. For large loads, heavily-soiled clothes, or when washing in hard water - 4 pump strokes (1/2 cup).
- Add Brisk® Advanced as the washing machine fills with water. Then add clothes. If bleach is desired, add bleach after the wash cycle has begun.
