

NEW PRODUCT

ONE PACKS® Veggie Prep™ Fruit & Vegetable Wash Made with FDA GRAS (Generally Recognized As Safe) ingredients.

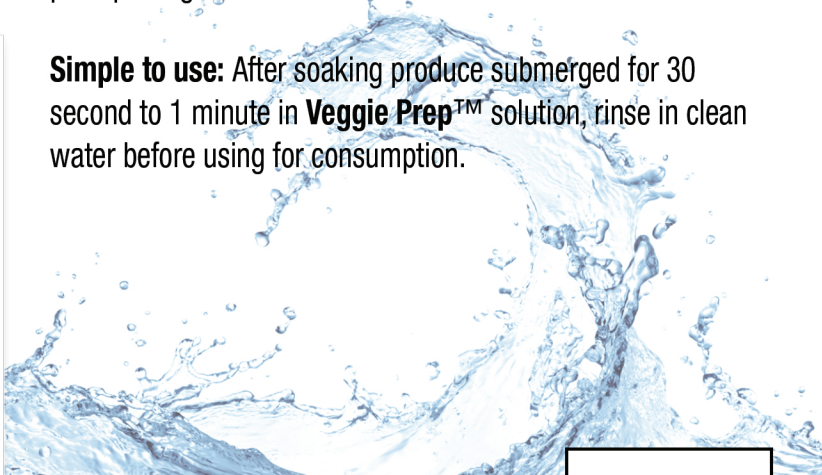

Veggie Prep™ Fruit & Vegetable Wash
#2509968

Some lessons are timeless, like learning from an early age to always rinse your fruits and veggies before eating them. But did you know that washing your fruits and vegetables with cold water only removes up to 80% of contaminants and pesticides.

ONE PACKS® Veggie Prep™ Fruit & Vegetable Wash Mix: 3.5oz premeasured packs, with a dilution ratio of one pack per 5 gallons of water.

Simple to use: After soaking produce submerged for 30 second to 1 minute in **Veggie Prep™** solution, rinse in clean water before using for consumption.
