SPRAY-AND-WIPE CLEANER GS Extra-Strength Cleaner

MANUAL DISHWASHING Pot 'N' Pan Cleaner

SANITIZER Steramine

NON-FOOD CONTACT SANITIZER Disinfectant

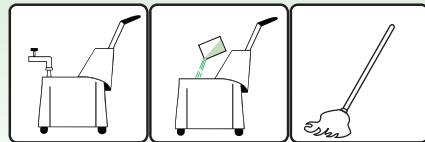

OVEN AND FRYER Multi-Scrub

For all-purpose cleaning of equipment, walls, doors, and floors (vinyl, quarry, and ceramic tile).

For All-Purpose Cleaning

1. Fill quart spray bottle to fill line with water.
2. Open one pack GS Extra-Strength and pour contents into spray bottle.
3. Spray surface. Let soak for heavy buildups.
4. Wipe clean and rinse.

1. Fill mop bucket to desired level.
2. Open one pack GS Extra-Strength and pour contents into mop bucket.
3. Apply solution to floor.

Note: Change solution when visibly dirty.

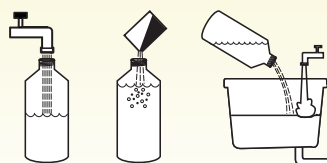

For hand dishwashing pots, pans, glasses, dishes, and utensils.

For Manual Dishwashing (Sink)

1. Fill sink to desired level with warm water.
 2. Open one pack Pot 'N' Pan Cleaner and pour contents into sink.
 3. Allow heavily soiled pans and utensils to soak for 5 minutes.
 4. Clean with scrub brush or pad.
 5. Rinse in clean water in second sink.
- Note:** Change solution in sink as recommended.

For Ready-To-Use Bottle Solution

1. Fill quart bottle with water to fill line.
2. Pour contents of one pack Pot 'N' Pan Cleaner into quart bottle.
3. Use as needed to prepare dishwashing solution in smaller sinks.
4. For objects too large to immerse in sink, pour ready-to-use solution directly on the object.

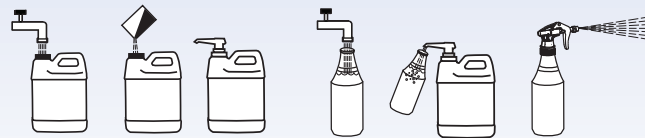

For sanitizing pots, pans, glasses, dishes, and utensils. For spray sanitizing food contact surfaces such as countertops. For soaking wiping cloths.

For Sanitizing (Sink)

1. Fill sink to desired level with warm water.
2. Pour contents of one pack Steramine® into sink.
3. Allow pre-washed and rinsed pans and utensils to soak in sanitizer solution for 1 minute, then air dry.
4. Change water as recommended, using quaternary test strips to check effectiveness.

For Spray Sanitizing

1. Fill Stock Solution bottle to indicated line with water.
2. Pour contents of one pack Steramine® into Stock Solution bottle.
3. Fill quart spray bottle to the uppermost ridge on the neck of the bottle.
4. Add one pump stroke (1 ounce) from Stock Solution bottle.
5. Spray and wipe surface clean, then air dry.

Note: Empty and rinse bottle before refilling.

For Soaking Wiping Cloths

1. Fill sanitizer bucket to indicated line.
2. Add one pump stroke (1 ounce) from Stock Solution bottle.
3. Soak clean wiping cloths between use.

For use as a Disinfectant, Virucide, cleaner.

For Heavy-Duty Disinfecting

1. Fill Stock Solution bottle to indicated line with water.
2. Pour contents of one pack Mark E II Disinfectant® into Stock Solution bottle.
3. Fill 16 oz. Mark E II Disinfectant® spray bottle to the uppermost ridge on the neck of the bottle.
4. Add one pump stroke (1 ounce) from Stock Solution bottle.
5. Spray and wipe surface clean.

Note: Empty and rinse bottle before refilling.

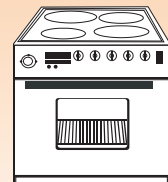

For heavy-duty degreasing of quarry tile floors, equipment, ovens, hoods, etc.

For Heavy-Duty Spray Degreasing

1. Fill quart spray bottle to fill line with water.
2. Open one pack Multi-Scrub and pour contents into spray bottle.
3. Spray surface. Let soak for heavy buildups.
4. Wipe clean and rinse.

For Oven Cleaning

1. Shut off gas or electric before cleaning.
2. Spray warm oven with solution from quart spray bottle.
3. Let soak for 10 minutes.
4. Re-spray and rub gently with abrasive pad.
5. Wipe surfaces with wet cloth.
