Powdered Detergent/Disinfectant is a phosphate-free, concentrated formulation designed to provide effective cleaning, deodorizing and disinfection specifically for hospitals, nursing homes and other institutions. Powdered Detergent/Disinfectant gently cleans and deodorizes walls, floors, sink tops, tables and chairs. Its disinfecting power kills HIV (the virus that causes AIDS), E. Coli, Salmonella Choleraesuis and many other bacteria on hard inanimate surfaces. Use Powdered Detergent/Disinfectant to clean and disinfect hard, non-porous surfaces of personal protective safety equipment (PPE), athletic equipment (helmets, headgear) and non-medical breathing apparatus (respirators, gas masks).

Stearns developed Powdered Detergent/Disinfectant to be an environmentally responsible product. Its concentrated detergent is premeasured and packaged in a 100% biodegradable water-soluble film that dissolves completely in water.

Eliminate unpleasant odors by simply dropping one packet of Powdered Detergent/Disinfectant in one gallon of water and apply.

Directions

Add one (1/2 oz.) premeasured packet per gallon of water. Powdered Detergent/Disinfectant is EPA registered as a disinfectant. This product has demonstrated efficacy against a variety of microorganisms including Pseudomonas aeruginosa PRD-10, Escherichia coli, Klebsiella pneumoniae, Salmonella schottmuelleri, Salmonella choleraesuis, Brevibacterium ammoniagenes, Streptococcus faecalis, Shigella dysenteriae, Staphylococcus aureus, Enterobacter aerogenes, Trichophyton mentagrophytes, and HIV-1. As an EPA registered disinfectant, it is a violation of federal law to use this product in a manner inconsistent with its labeling.

Caution

Do not handle packets with wet hands. Do not remove packets from container prior to use. Humidity and water will destroy the packet integrity.

See actual pail label for complete EPA information.
